

Investment Boost 2025

**MORE TAX SAVINGS.
SMARTER UPGRADES.
STRONGER FUTURE.**

Lifting your game. Since 1975.

Why This Matters to You

Whether you're harvesting tree crops, working the vines, or keeping operations safe at height - there's never been a better time to invest in Hydralada equipment. Thanks to the Government's New Investment Boost, you can now **claim a 20% tax deduction** on the cost of new qualifying gear, on top of normal depreciation.

This means:

Lower Tax Bill

By instantly deducting 20% of the value of you new equipment, you'll reduce your taxable income - keeping more money in your business instead of sending it to the IRD.

Better Cash Flow

Improved tax savings in year one means more working capital at your fingertips. Use that cash to reinvest, pay off finance faster, or ease seasonal pressures.

Faster Return

Combining upfront deductions with regular depreciation means our new equipment starts paying for itself from day one - on the ground and in the books.

How It Works

Buy a qualifying new asset after 22 May 2025 and you can:

- Claim 20% of the asset's value as an immediate tax deduction.
- Depreciate the remaining 80% as normal.
- Include it all in your tax return for the year of purchase.

No registration. No extra forms. Just ask your accountant to apply it.

**Asset must be available
for use in that same
financial year.**

What Qualifies?

- Brand-new machinery, attachments, work vehicles, tools.
- Imported second-hand gear (as long as never used in NZ).
- New commercial buildings.
- Capital improvements on eligible assets.

What Doesn't Qualify?

- Used machinery purchased within NZ.
- Equipment bought before 22 May 2025.
- Residential buildings.
- Land itself (though improvements may qualify).
- Patents or fixed-life intangible assets.

When Does it Apply?

Only for qualifying assets purchased on or after 22 May 2025.

***All rates and benefits need to be checked with your own accountant E&OE**
